CITELINE PATIENTMATCH
CITELINE CLINICAL

Enable Precision Patient Recruitment with
Citeline PatientMatch

Empower investigators to consider every potential participant for your trial by alerting your site staff or CRO that a potential clinical trial participant presented at their site.

Citeline PatientMatch delivers custom-timed alerts when patients receive lab or biomarker results that could make them eligible for your study.

Take a targeted approach to reach the right patients

Partner with our in-house subject matter experts to select the exact combination of real-world data needed to find the right patients for your trial.
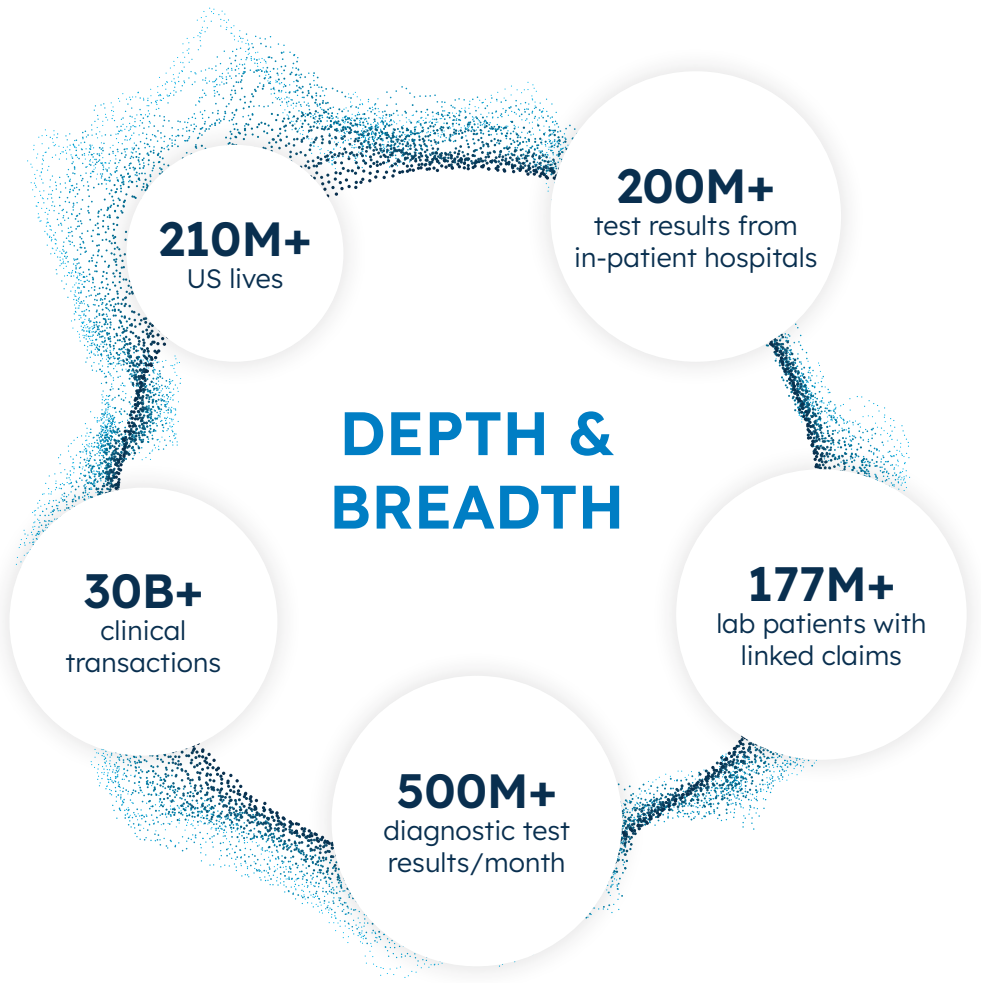

Get the full picture of the patient population

Our lab data are connected to the rest of our industry-leading datasets, giving you a full view of a patient's journey. We comb through medical and Rx claims, diversity data, and EHR so you can tap into valuable patient journey insights.
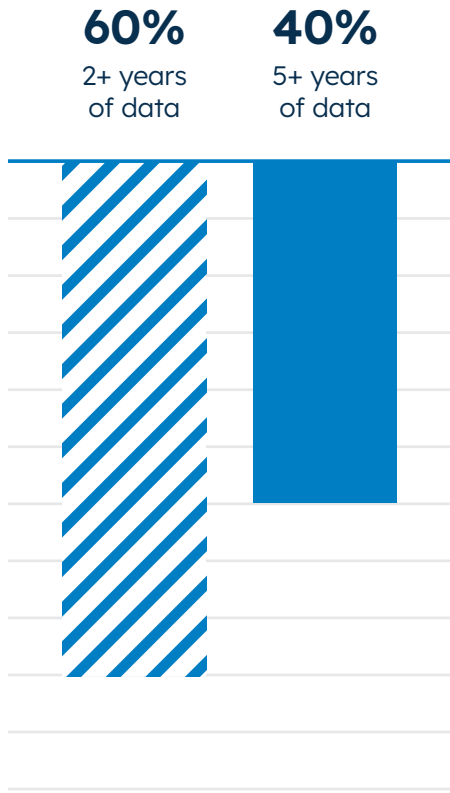

Enable your sites to be more efficient

Empower your principal investigators to optimize their time and concentrate on ideal trial participants, streamlining recruitment processes before the window of opportunity closes.
