CITELINE

CLINICAL

Trialtrove⁺ & Sitetrove⁺

Insights to build and defend data-backed strategies

Our industry-leading Trialtrove and Sitetrove solutions just got better, thanks to newly infused proprietary performance data, new technology, and data science capabilities. That means your ability to optimize clinical trial planning, site, and investigator selection just got better, too.

Plan successful trials with Ella, an AI chat assistant that gets you answers faster

Analyze the clinical trial landscape using advanced analytics

Trialtrove & Sitetrove

+ Proprietary Performance Data

+ Subject Matter Experts

+ Data Science

+ Technology

Identify the KOLs needed to support your studies using Expert Finder

Execute with confidence using global, industry-wide performance metrics

These applications layer performance data, subject matter expertise, and data science over Citeline's clinical trial, site, and investigator intelligence. Trialtrove⁺ and Sitetrove⁺ extract information from over 60,000 data sources, plus new proprietary data.

And Ella, our intuitive chat assistant, creates and validates searches, getting you to your answers, faster.

TRANSFORMING THE WAY YOU SEE THE WORLD
